Roland TrueVIS VG3-540

ORALITE® ECO Traffic Printer

ORAFOL partners with ROLAND to offer a state of the art Eco-Solvent Traffic Sign Printer. The ORALITE® Eco-Solvent Traffic Sign Printer, based on the Roland TrueVIS VG3-540, utilizes the specially formulated ORALITE® 5017 CMYKR ink system; allowing for the production of high quality MUTCD compliant traffic signs and graphics.

The Service You Expect

- 3 years maintenance, license, and technical support included
- 3 years full service warranty on hardware, parts, and technician expenses
- 1 year warranty on all print heads
- ORAFOL warranted sign system (*ASTM Traffic Sign Colors*)

7" LCD Touch Panel

- Immediately access print cut settings and machine notifications
- Real time view of ink levels and remaining print time
- Easily operate take up and perform sheet cuts

Software You Trust

- Ergo-Soft RIP Software
- Roland VG3-540 Anti-Static Bar, reducing the build up of static electricity when printing microprismatic sheeting
- Roland DU3-54 Dryer Unit, high volume dryer unit improving dry times for roll-to-roll applications

Enhanced Media Handling

- Wider rear opening and one-touch media holder for quick and easy loading
- NEW take up unit with fully adjustable end cap, allowing more freedom of media placement and use of various tube sizes
- Modified wider pinch rollers result in no pressure marks while feeding microprismatic sheeting
