

Description

ORALITE® Brilliance® Series GP025 is a soft, flexible glass bead reflective trim designed for heat application to rainwear and garments where comfort and specification compliance are required.

ORALITE® Brilliance® Series GP025 complies with all the requirements for retroreflective material in accordance with ANSI/ISEA 107-2020; and CSA Z96-2022 for Level 2 photometric performance.

Product Construction

ORALITE® Brilliance® Series GP025 is composed of wide-angle, exposed glass bead microsphere retroreflective elements bonded to a heat activated polyurethane adhesive. The heat activated adhesive is protected by a release film.

Reflectivity

ORALITE® Brilliance® Series GP025 exceeds the minimum reflectivity requirements of ANSI/ISEA 107-2020, Table 4 and CSA Z96-2022, Level 2.

Color

ORALITE® Brilliance® Series GP025 is available in silver (daytime appearance) with a white reflected color (nighttime appearance).

Machine Washing

ORALITE® Brilliance® Series GP025 when washed in accordance with ISO 6330:2012, *Textiles - Domestic washing and drying procedures for textile testing*, Method 6N; continue to perform through 25 cycles at 140°F (60°C). Do Not Dry Clean ORALITE® Brilliance® Series GP025.

Application Instructions

There can be considerable variation in the background fabrics, chemical treatments, fusing equipment / methods and equipment in the washing processes; therefore, it is important that these are evaluated for each application. It is the responsibility of the user to test the specific fabric(s) to be sure that the adhesion of ORALITE® GP025 is satisfactory on an ongoing basis before commencing production.

The ORALITE® GP025 is protected by a protective film that is to be removed after its application.

Please contact ORAFOL for the complete application instructions.

Note:

All ORALITE® products are manufactured within an ISO 9001:2015 controlled manufacturing environment and batch traceability is possible on the basis of the roll number.

IMPORTANT NOTICE

All ORALITE® products are subject to careful quality control throughout the manufacturing process and are warranted to be of merchantable quality and free from manufacturing defects. Published information concerning ORALITE® products is based upon research which the Company believes to be reliable although such information does not constitute a warranty. Because of the variety of uses of ORALITE® products and the continuing development of new applications, the purchaser should carefully consider the suitability and performance of the product for each intended use, and the purchaser shall assume all risks regarding such use.

All specifications are subject to change without prior notice.
