

**NEW!**

## ORACAL® 952 & 953 Series

### The ideal film when it comes to colourfully printed vehicle decals.

The ORACAL® 952 and 953 series are a set of new cast screen printing films, developed for letterings, markings and decorations where the highest requirements for durability and solidity are found.

The ORACAL® 952 series comes with a permanent adhesive with a higher degree of initial tack, and the ORACAL® 953 series has a repositionable permanent adhesive.

Both series are available with the *RapidAir*® structure, making application even easier. The *RapidAir*® technology has been specifically developed to prevent air bubbles from getting trapped under the material. This means that application can be done quicker and with a lot less hassle.

### The series includes:

- ORACAL® 952
- ORACAL® 952RA
- ORACAL® 953
- ORACAL® 953RA

### Product benefits include:

- Screen printing film
- Extreme durability and stability
- Excellent dimensional stability
- Available in white and transparent
- Gloss finish
- ORACAL® 952/952RA:  
Permanent adhesive
- ORACAL® 953/953RA:  
Repositionable permanent adhesive
