The well established reflective ORALITE® Economy Grade is now available with *RapidAir®* (RA) technology, making application easier than ever before!

The *RapidAir®* technology enables easy and quick application reducing the incidence of bubbles and creases, especially of large-sized applications. The material is the favourite choice for reflective advertising and information signs, designed for short-term outdoor use. The weatherproof, glossy surface boasts excellent printability.

**Product benefits include:**

- Reflective film (105 micron)
- Special cast PVC film for excellent printability
- ***RapidAir®* for extra easy application**
- 6 colours
- Service life: 3 years
- Adhesive: Solvent polyacrylate, permanent
