

ORALITE® 5600RA Fleet Engineer Grade

ORALITE® 5600RA is the newest member of the family of high quality reflective vehicle livery films from ORAFOL.

The *RapidAir*® technology makes this new material a favourite for all installers. It enables easy and quick application, as it reduces the incidence of bubbles and creases, especially for large sized applications. With no less than 11 standard colours available, the design possibilities are vast.

The product has excellent printing properties for inkjet printing with most solvent-based inks, UV or latex inks, as well as screen-printing with ORALITE® 5018 Screen Printing Ink.

Product benefits include:

- Reflective film (150 micron)
- Cast PVC film for excellent printability
- **RapidAir® for extra easy application**
- 11 colours
- For high quality vehicle livery
- Service life: 7 years
- Adhesive: Solvent polyacrylate, removable by heat
