## Reflective Safety Tape for Fire-Fighters' Garments

### Product benefits include:

- Soft, flexible, fluorescent lime textile backed tape, with a retroreflective glass bead central strip
- Offers instant recognition for fire-fighters in day time and low light conditions
- The retroreflective performance of the central strip exceeds the minimum requirements of EN ISO 20471\*
- The central strip provides limited flame spread properties according to EN 469 and is also approved to EN ISO 14116 (Index 3)
- Meets the EN ISO 20471 requirements for fluorescent background materials
- Approved to Oeko Tex 100 Class II
- Single layer construction
- Colour: Fluorescent lime backing material with a silver retroreflective glass bead central strip
- Central strip reflects light in a white colour
- For sew-on application
- Standard roll-size: 50 mm x 100 m, and 75 mm x 100 m

*\*Not for use on EN ISO 20471 garments, as the compliant part does not meet the minimum width of 50 mm.*
