ORAFIX® 1490QS Quick Splice

Description

The tape consists of a modified acrylic adhesive and a white paper carrier. The paper support enables hand-tearability of the tape while offering good tensile strength at the same time. The adhesive is characterised by excellent bond strength on paper and board and extreme high initial bond strength. In addition, ORAFIX® 1490QS contains a splittable paper strip for secure roll closure. The special arrangement of the splittable strip enables a very homogeneous system run, in particular at high web speeds.

Carrier

Silk paper, white Splittable paper, white

Liner

Siliconised paper on both sides, white, 90 g/m², with blue ORAFOL branding

Adhesive

Modified acrylic adhesive, red

Area of use

ORAFIX® 1490QS (Quick Splice) is an innovative splicing tape that provides high splicing efficiency and highest technical performance in board and paper (coated and un-coated, metallised, printed, etc.) processing, e.g. printing processes. The design of ORAFIX® 1490QS offers "Quick Splice" preparation combined with secure roll closure during flying splices and very efficiently prevents a premature opening of the roll during the synchronisation phase of the rolls during high speed splicing operations.

Technical Data

Thickness* (carrier + adhesive)	120 micron
Temperature resistance***	+200°C momentary up to +220° C
Loop Tack* (FINAT TM 9)	14 N/25 mm
Adhesive power* (FINAT TM 1, on stainless steel)	15 N/25 mm after 1 min 15 N/25 mm after 20 min 15 N/25 mm after 24 h
Shear strength* (S.A.F.T. Test from 23° C up to 220° C	220° C
Tensile strength* (DIN EN ISO 527)	Along: 160 N/25 mm Across: 80 N/25 mm
Shelf life**	18 months in closed original packing
average ** in original packaging, at 20° C a	and 50% relative humidity *** 1h, normal climate of Central Europe

IMPORTANT NOTICE

All ORAFIX® products are subject to careful quality control throughout the manufacturing process and are warranted to be of merchantable quality and free from manufacturing defects. Published information concerning ORAFIX® products is based upon research which the Company believes to be reliable although such information does not constitute a warranty. Because of the variety of uses of ORAFIX® products and the continuing development of new applications, the purchaser should carefully consider the suitability and performance of the product for each intended use, and the purchaser shall assume all risks regarding such use. All specifications are subject to change without prior notice.
