

## Application

Medium hard, double coated foam tape with 380 micron (15 mil) application thickness and differential acrylate adhesives on each side. For mounting of stiff or thicker photopolymer plates up to 2.54 mm (0.1") on composite and urethane sleeves or print cylinders in the high quality label printing industry (narrow- and mid web process).

## Construction

<b>Thickness without liner*</b>	approx. 430 micron (17 mil)
<b>Liner</b>	embossed PP film, 110 micron, white
<b>Adhesive, closed side</b>	acrylic, enhanced adhesion
<b>Carrier</b>	medium hard PE foam, white on plate side
<b>Adhesive, open side</b>	acrylic

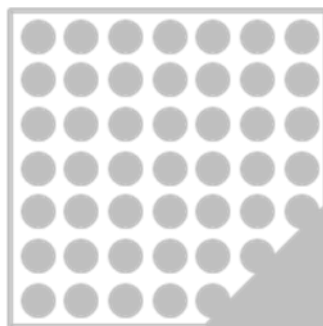

\* average

## Product Properties

- Medium hard plate mounting tape
- 380 micron (17 mil) application thickness
- Hardness grade "medium" indicated by the white colour code
- Minimum thickness tolerances
- Differential acrylate with enhanced adhesion to plate for a secure mounting without edge-lifting
- Easy and clean demounting
- Easy repositioning
- Embossed liner enables plate mounting without air entrapments

## Application fields

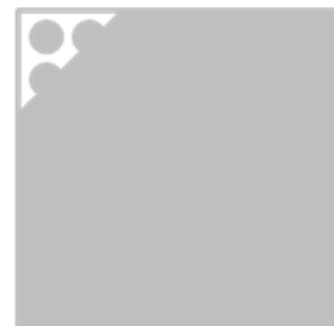

- especially suitable for fine lines, halftones and process printing
- combination of solid and screen
