

## Application

Medium hard, double coated foam tape with 500 micron (20 mil) application thickness and differential acrylic adhesives on each side. Especially for mounting of stiff or thick photopolymer plates ( $\geq 2.54$  mm (0.1")) on composite and urethane sleeves or print cylinders with small to normal diameter in the flexible packaging and pre-print industry (wide web process).

## Construction

<b>Thickness without liner*</b>	approx. 550 micron (22 mil)
<b>Liner</b>	embossed PP film, 110 micron, white
<b>Adhesive, closed side</b>	acrylic, high adhesion
<b>Carrier</b>	medium hard PE foam, white on plate side
<b>Adhesive, open side</b>	acrylic, high adhesion

\* average

## Product Properties

- Medium hard plate mounting tape
- 500 micron (20 mil) application thickness
- Hardness grade "medium" indicated by the white colour code
- Minimum thickness tolerances
- Differential acrylate with high adhesion to plate and sleeve/cylinder for a secure mounting without edge-lifting
- Easy and clean demounting
- Easy repositioning
- Embossed liner enables plate mounting without air entrapments

## Application fields

- especially suitable for fine lines, halftones and process printing
- combination of solid and screen
