# **ORAJET® 3751**

#### **Description**

Polymeric PVC film, available in white or transparent with a glossy surface

#### **Release Paper**

Double sided PE coated paper, one side siliconised, 143 g/m<sup>2</sup>

### Adhesive

Solvent polyacrylate, repositionable with permanent final adhesion, grey or transparent

### Area of use

For long-term outdoor displays e.g. digital large format prints, with the highest degree of brilliancy and durability

# **Printing Method**

Inkjet printing with solvent-based inks or latex inks

### **Technical Data**

60 micron
Adhered to steel shrinkage, no shrinkage in cross direction, ir length 0,2 mm max.
Adhered to aluminium, -50° C to +90° C (short-term, max. 24h at +100° C) , no variation
Adhered to aluminium, after 100h/23° C, no variation
At room temperature, 72h adhered to aluminium resistant to most mineral oils and fats, fuels, aliphatic solvents, mild acids, salts and alkali
Adhered to steel, self-extinguishing
18 N/25 mm
Along: min. 19 MPa Across: min. 19 MPa
Along: min. 130% Across: min. 150%
2 years
>+8° C
8 years (not printed)

\* average \*\* in original packaging, at 20° C and 50% relative humidity \*\*\* normal climate of Central Europe

# Note

After printing, the ink must be allowed to thoroughly dry, in order to avoid any issues when later combined with the laminate. Surfaces to which the material will be applied must be thoroughly cleaned and free from dust, grease or any contamination which could affect the adhesion of the material. Freshly lacquered or painted surfaces should be allowed to dry for at least three weeks and to completely cure. The compatibility of the selected lacquers and paints should be tested by the user, prior to the application of the material. Furthermore the application information published by ORAFOL must be considered.

## **IMPORTANT NOTICE**

All ORAJET<sup>®</sup> products are subject to careful quality control throughout the manufacturing process and are warranted to be of merchantable quality and free from manufacturing defects. Published information concerning ORAJET<sup>®</sup> products is based upon research which the Company believes to be reliable although such information does not constitute a warranty. Because of the variety of uses of ORAJET<sup>®</sup> products and the continuing development of new applications, the purchaser should carefully consider the suitability and performance of the product for each intended use, and the purchaser shall assume all risks regarding such use.
