Why ORAFOL...

As one of the world's leading manufacturers of reflective materials, the ORAFOL Group earned its reputation for global excellence through its dedication to ingenuity, quality and service. When it comes to offering reflective solutions for the traffic control, vehicle conspicuity, personal safety and mining industries, ORAFOL understands it's responsibility to manufacture products that exceeds expected performance during application, while still offering innovative solutions to the industry.

Engineered to Save Lives™

ORAFOL's dedication to quality and service is reflected in every aspect of the business. From research and development to product delivery and customer service, our commitment to excellence through people, process and technology is unparalleled.

At ORAFOL we strive to deliver the highest quality reflective materials possible, for all our safety business partners.

We take pride that we are at the forefront of technological innovations with our engineering advancements and state of the art manufacturing processes. As we understand that the quality of our materials could make all the difference in high risk environments, we dedicate ourselves every day grounded in the knowledge, that our products save lives.

Dr. Holger Loclair Managing Director

At the core of our excellence is our dedicated team. Around the globe, ORAFOL employees represent the industry's brightest and most innovative experts who are committed to focusing on customer needs with a stringent dedication to continuous improvement and process control.

Within a supportive environment, employees are encouraged to partner with customers to develop and produce the most innovative solutions to meet customer needs, whether they are standard or customised products.

Our teams are supported with a framework of an integrated management system which combines both ISO 9001 and ISO 14001 to ensure consistency of process and quality, while protecting our environment.

Of course, people and processes must be supported by the most advanced tools. Our investments in the latest facilities, technology for research and development, custom manufacturing equipment, process control and delivery logistics systems ensure our status as a market leader.

ORALITE® 7910

For traffic signs for long-term outdoor exposure

Product benefits include:

- High brightness
- Highest degree of weather resistance
- Surface of UV stabilised acrylic film
- Compliance to AS/NZS 1906.1:2017 Class 900
- Weatherproof
- Excellent printability
- Screen printing with ORALITE® 5018
- UV digital printing on ORALITE® UV Traffic Sign Printer, with ORALITE® 5019 Digital Printing Ink
- Transparent film: We recommend ORALITE® 5061
- Lettering film: We recommend ORALITE® 5081

Please Note: Strictly intended for adhesion onto even surfaces

Engineer Grade Premium

ORALITE® 5710 / 5700*

Long term outdoor applications

Product benefits include:

- Reflectivity exceeds 100 cd/(lx*m²) at 0,2° / 5° (for white colour)
- Alkyd resin surface
- Excellent resistance to corrosion & solvents
- Excellent adhesion to metallic surfaces (e.g. aluminium and galvanised steel)
- ORALITE® 5710 is CE-certified
- Compliance to AS/NZS 1906.1:2017 Class 100 (Class 2)
- Weatherproof
- 130 micron
- Excellent printability

Please Note: Strictly intended for adhesion onto even surfaces

*Denotes no watermark on this product.

Permanent Traffic Signs – Glass Bead Films

Engineer Grade

ORALITE® 5500

Long term outdoor applications - for reflective warning and information signs

Product benefits include:

- Reflectivity film, 110 micron
- Excellent resistance to corrosion and solvents
- Compliance to AS/NZS 1906.1:2017 Class 100 (Class 2)
- Solvent polyacrylate, permanent

Product	Colour range	Printing	Roll sizes	Outdoor durability
ORALITE® 5500	White, Yellow, Orange, Red, Blue, Green, Brown, Black	Screen printing	1235mm x 50m <i>Other sizes available on request</i>	7 Years

Commercial Grade

ORALITE® 5400

Medium term outdoor applications

Product benefits include:

- Cast PVC film
- High resistance to corrosion and solvents
- Excellent adhesion to metallic surfaces
- Weatherproof
- Excellent printability for both Ink-jet and screen printing Inks
- Compliance to AS/NZS 1906.1:2017 Class 100 (Class 2)

Product	Colour range	Printing	Roll sizes	Outdoor durability
ORALITE® 5400	White, Yellow, Orange, Red, Blue, Green	Ink-jet and screen printing	1235mm x 50m <i>Other sizes available on request</i>	4 Years

Please Note: Strictly intended for adhesion onto even surfaces

Economy Grade

ORALITE® 5200

For sign boards, lettering, markings, symbols and graphic

Product benefits include:

- Cast PVC polymer blend surface
- Short term outdoor use
- Weatherproof
- When a minimal degree of reflectivity is needed

Product	Colour range	Printing	Roll sizes	Outdoor durability
ORALITE® 5200	White, Yellow, Orange, Red, Blue, Green	Ink-jet and screen printing	1235mm x 50m <i>Other sizes available on request</i>	3 Years

Please Note: Strictly intended for adhesion onto even surfaces

Prismatic Construction Grade

ORALITE® 5931M

Prismatic single layer reflective film designed for production of high brightness barricades and construction zone signs.

Product benefits include:

- Highly reflective prismatic film, preprinted
- Single layer construction with no risk of dirt ingress at the edges
- Excellent adhesion to polyolefinic substrates
- Compliance to AS/NZS 1906.1:2017 Class 400T (Class 1) (WZ)
- Surface of specially treated PVC film
- Compliance to the requirements for barricades and guiding elements
- PVC construction consists of metalised micropisms

Product	Colour range	Roll sizes	Outdoor durability
ORALITE® 5931M	White / Red, White / Black Preprinted	1235mm x 50m Other sizes available on request	5 Years

Construction Grade

ORALITE® 5431

Medium term outdoor applications - Ideal for hazard warning and construction site markings

Product benefits include:

- Cast PVC film
- Highly flexible reflective film
- Weatherproof
- Adhesive: solvent Polyacrylate, permanent, high tack
- Ideal for applications onto Polyolefinic surfaces
- Compliance to AS/NZS 1906.1:2017 Class 100 (Class 2)

Product	Colour range	Roll sizes	Outdoor durability

Cone Collars

ORALITE® 2018

ORALITE® High Performance Cone Collars are made of a tough, weather-resistant, highly reflective microprismatic retroreflective sheeting. ORALITE® cone collars are manufactured in configurations to meet a wide variety of specifications and cone sizes.

Product benefits include:

- Highly durable and impact resistant
- Compliance to AS/NZS 1906.1:2017 Class 400T (Class 1, Class 1W and WZ)
- Excellent visibility at great distances
- Excellent wide angle performance
- Solvent resistant
- Easily wiped clean
- Can be removable for temporary use, or made permanent
- Slip on design

ORABOND®

ORAFOL®

Engineered to Perform Better™

Engineered to Save Lives™

A large industrial UV printer, the Anapurna M2050i, is shown in a clean, well-lit factory environment. The machine is primarily red with black and yellow safety markings. It is processing a roll of white material, likely retroreflective film, which has colorful traffic signs printed on it. A computer monitor is visible on the right side of the machine, displaying a control interface. The machine's name 'ANAPURNA M2050i' is clearly visible on its side.

UV Traffic Sign Printers

The UV digital printing system is an environmentally friendly alternative to the screen printing technology. It is especially ideal for smaller production runs as well as for production of signs with variable information, directions and other information that may require only a quantity of one or two signs.

ORALITE® UV Traffic Sign Printer

The ORALITE® UV traffic sign printer is based on the AGFA UV printer Anapurna M 2050 / M 2050i / H 2050i LED / RTR 3200i LED and of the CE certified ORALITE® 5019 UV digital printing inks. The following CE certified ORALITE® retroreflective films both for temporary and permanent applications can be printed by the ORALITE® UV digital printing system:

- ORALITE® 5510 Engineer Grade
- ORALITE® 5710 Engineer Grade Premium
- ORALITE® 5810 High Intensity Grade
- ORALITE® 5910 High Intensity Prismatic Grade
- ORALITE® 5960 High Intensity Prismatic Construction Grade
- ORALITE® 6910 Brilliant Grade
- ORALITE® 7910 Brilliant Grade

Compared with the current solutions for the production of traffic control and guidance signs available in the market, the optimised ORALITE® UV digital printing system is characterised by the following features:

- proven and reliable print head technology made by the market leader Konika Minolta

- six print heads 12 pl for printing the basic traffic colours
- additionally two print heads 42 pl for special applications.
- optional colour mixes also for graphic applications are possible.
- space-saving, stable and reliable hybrid solution for the processing of plates up to 4.5 cm thickness as well as of materials in rolls (roll-to-roll)
- printing speed comparable to existing systems in the market while offering a higher resolution, more detailed drawings and highest production safety.

A comprehensive worldwide service system ensures the performance and efficiency of the ORALITE® UV digital printing system for the manufacture of traffic and control signs on the basis of ORALITE® retroreflective films.

UV Digital Traffic Sign Printers

M 2050:

ORALITE® UV Traffic Sign Printer

M 2050i / H 2050i LED:

ORALITE® UV Traffic Sign Printer
Premium

RTR 3200i LED:

ORALITE® UV Traffic Sign Printer
Premium Plus

Optimised system for digital production of traffic control and guidance signs. All retroreflective films within the ORALITE® range are printable on the ORALITE® UV Traffic Sign Printer, making it ideal for production of certified as well as non-certified printed signs. The system consists of the ORALITE® UV Traffic sign printer based on the four AGFA UV printers: Anapurna M 2050, Anapurna M 2050i, Anapurna H 2050i LED and Anapurna RTR 3200i LED. All four printers are approved for printing CE certified permanent signs, using the ORALITE® 5019 UV digital printing inks.

All test certificates currently issued for reflective films from ORAFOL Europe GmbH are valid for digital prints on AGFA Anapurna M 2050, Anapurna M 2050i, Anapurna H 2050i LED and Anapurna RTR 3200i LED.

Digital printing technology with UV curing inks

- for printing on various material surfaces
- environmental friendly operation
- no solvent evaporation
- digital printing for optimised print-on-demand manufacturing as well as for high volume printing

Key benefits of the M 3200i LED RTR:
NEW

- Increased production speed
- Ergonomic design
- Dual roll printing possible
- Energy efficient
- Cost saving UV LED technology

ECO Traffic Printer

ORALITE® ECO Traffic Printer Based on OKI ColorPainter M-64S

NEW

The ORALITE® ECO Traffic Printer is the eco-friendly printing system for the production of road traffic signs – both for temporary and permanent applications. The system consists of the OKI ColorPainter M-64s and the Greenguard Gold certified OKI low odour eco solvent SX inks. In combination with ORAFOL's printing profiles especially developed for the traffic sign application the ORALITE® ECO Traffic Printer addresses the diverse requirements of the outdoor signage industry. Various ORALITE® retroreflective films based on both glass bead and microprismatic technology are printable on this system, and the printed outcome will comply to the requirements for colour and retroreflectivity found in different national standards for road traffic signs⁽¹⁾. The versatile, large format ORALITE® ECO Traffic Printer system is the first choice of the cost-conscious sign maker and combines high quality, high density, high durability results with fast print speeds⁽²⁾.

⁽¹⁾ Please contact your local ORAFOL representative for further information

⁽²⁾ Traffic sign colours 7 – 14 m²/h., up to 66.5 m²/h (draft mode)

OKI ColorPainter M-64s

ORALITE® ECO Traffic Printer

Eco Solvent Inkjet Printer

TECHNICAL DETAILS

SPECIFICATION	
Model	IP-6620-00 ColorPainter M-64s
Print Head	Industrial High Frequency drop-on-demand piezo print head
Number of Nozzles	508 nozzles/head
Maximum Resolution	900 x 900 dpi
Visual Resolution	Photorealistic printout
Maximum Media Width	1.626 mm
Maximum Print Width	1.616 mm
Printing Speed	3,5 to 66,5 m²/h (approx. 7 - 9 m²/h for printing traffic signs)
Media Weight	Up to 50 kg
Maximum Media Diameter	220 mm
Margin Size	5 mm on each edge (with rolled media, without edge guards)
Ink Type	Eco-Solvent SX ink with Greengard certification
Colour	7 (CMYK, Lc, Lm, Gy)
Maximum ink capacity	1,5 l per colour
Media	Retroreflective sheeting, vinyl, banner, paper, backlit, technical textiles
Heater	3-way built-in heaters (Pre, Print, After)
Take-up Modes	Tension or loosen inside or outside printing
Interface	USB 2.0
Power Source	200 – 240 VAC, 12A, 50 Hz / 60 Hz
Power Consumption	Start-up: 2,880 W or less – Stand-by: 100 W or less
Operating Environment	15 – 30 °C, 30 – 70 % rh (no condensation)
Storage Environment	5 – 35 °C, 10 – 80 % rh (no condensation)
External Dimensions	3,095 (W) x 935 (D) x 1,247 (H) mm
Weight	321 kg or less (without media and ink)
Software	Onyx RIP (Version 12.2) included, Computer NOT included
OPTIONS	
Cutter unit	With practical fixations for a perfect 90 ° cut after printing
Exhaust Attachment	Allows the installation of an exhaust system
2" Flange	Media for rolls with a core diameter of 2 inches

DIGITAL PRINTING WITH ECO-SOLVENT-SX INKS:

- Printing on various media
- Eco-friendly operation (Greengard certification)
- Low-odor
- Optimized Print-On-Demand production

Prismatic flexible livery film – for easy application even onto curved surfaces

ORALITE® VC 612 Flexibright™

Product benefits include:

- Single layer PVC construction
- Prismatic reflective performance
- Very high brightness
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1)
- Unique handling
- User friendly application
- Engineered to conform to demands of vehicle shapes
- Medium tack adhesive
- Flexible – great for application onto curved surfaces e.g. motorbikes
- Easy to cut and no edge sealing required
- Withstands power washes
- Potential single piece removability
- Templates require fewer pieces
- Available in 7 colours, including fluorescent
- Self adhesive backing
- Transparent film: We recommend ORALITE® 5051

Product	Colour range	Roll sizes	Typical durability
ORALITE® VC 612	White, Yellow, Blue, Green, Red, FI Yellow, FI Lime, FI Orange, FI Red Orange	775mm x 45.7m 1235mm x 25m 1235mm x 50m Other sizes available on request	Non-fluorescent colours: 5 years fluorescent colours: 3 to 5 years (depending on geographical region)

“As we operate in a high risk environment, we understand that when it comes to emergency services vehicle livery, visibility and safety are key priorities. We continually trust and use ORAFOL reflective materials which offers us a high level of prismatic reflective performance to enhance vehicle awareness in both day and night time operations. We also acknowledge the flexibility in application of the ORALITE material with its user friendly handling, conformability, adhesion and final removal properties.”

Frank Howe Operations Coordinator
Department of Police, Fire and Emergency Management

Fleet Engineering Grade Reflective Film

ORALITE® 5600RA

NEW

RapidAir® Technology is designed to make fleet applications easier by reducing the incidence of bubbles, **ORALITE® 5600RA** series is ideal for emergency vehicle applications over flat surfaces, rivets and simple curves.

Product benefits include:

- Glass bead reflective performance
- High degree of flexibility
- Easy to apply, with good adaptability for uneven surfaces
- Easy removal from painted surfaces (Using heat)
- Excellent removability
- Easy to use on plotters
- Compatible with popular latex, solvent, eco-solvent & UV curable printers
- With *RapidAir®* for easy application
- Compliance to AS/NZS 1906.1:2017 Class 100 (Class 2)*
- Transparent film: We recommend ORALITE® 5051

ORAFOL is your full range supplier of ECE 104 compliant materials

As one of the world's leading suppliers of reflective materials, the ORAFOL Group earned its reputation for global excellence through its dedication to ingenuity, quality and service. When it comes to supplying products for the vehicle conspicuity industry, we work each day with a dedication grounded by our knowledge that the quality of our products helps save lives.

ORAFOL is the leading manufacturer of ECE 104 compliant marking materials. The range of products has been specifically designed for long-lasting top quality performance.

The range includes solutions for all kinds of vehicles including applications onto rigid bodies, circular tanker shapes as well as curtain sides. Whatever the need, ORAFOL has a solution to keep you and others safe on the road.

“

Research shows that conspicuity markings can reduce crashes in low light conditions involving HGVs by up to 41%*

**Source: The US National Highway Traffic Safety Administration (NHTSA)*

HGV barely visible without ECE 104 compliant reflective material

HGV clearly visible with ORALITE® VC 104+ material

ECE 104 Regulation

Since 10 July 2011 conspicuity markings have been compulsory in Europe, for new type approved trucks with a tonnage over 7.5 tonnes (N2 and N3) and for trailers with a tonnage of more than 3.5 tonnes (O3 and O4).

Reflective materials which must comply with regulation ECE 104 of the United Nations Economic Commission for Europe (UNECE) have to be applied to the sides and rear of all relevant vehicles.

As the inventor of microprismatic retroreflective technology primarily mandated for ECE 104 markings, ORAFOL's materials have been setting the standard for HGV visibility performance since the early 1990s.

To assist operators understand ECE 104 Regulation, the Australian Trucking Association (ATA) has produced a Technical advisory procedure for heavy vehicle visibility which is available from the ATA website at <http://www.truck.net.au/resource-library/heavy-vehicle-visibility-technical-advisory-procedure>

ECE 104 Regulation Overview

Being seen is being safe.

M	Motor vehicles used for the transport of passengers	Mandatory since 10th July 2011*	Allowed	Not allowed
M1	Motor vehicles used to transport passengers with no more than 8 seats in addition to the driver's seat	-	-	✗
M2	Motor vehicles used to transport passengers with more than 8 seats with a maximum weight of 5 tonnes	-	✓	-
M3	Motor vehicles used to transport passengers with more than 8 seats and with more than 5 tonnes in weight	-	✓	-
N	Motor vehicles used for the carriage of goods	Mandatory since 10th July 2011*	Allowed	Not allowed
N1	Motor vehicles used for the carriage of goods with a maximum weight of 3,5 tonnes	-	✓	-
N2	Motor vehicles used for the carriage of goods with a weight over 3,5 tonnes but not exceeding 7,5 tonnes	-	✓	-
N2	Motor vehicles used for the carriage of goods with a weight exceeding 7,5 tonnes	✓	✓	-
N3	Motor vehicles used for the carriage of goods with a weight exceeding 12 tonnes	✓	✓	-
O	Trailers	Mandatory since 10th July 2011*	Allowed	Not allowed
O1	Trailers with a maximum weight not exceeding 0,75 tonnes	-	-	✗

Approved marking tape for rigid surfaces

ORALITE® VC 104+ Rigid Grade
for HGVs with rigid sides

Product benefits include:

- Approved to ECE 104 Class C
- No need to edge seal
- No risk of the tape cracking
- Excellent long range visibility even in poor weather conditions
- Also available as VC 104+ Rigid Grade Imagine, customised with your logo repeated along the tape
- Easy to handle and apply
- Robust enough to withstand cleaning processes including power washing

Product	Colour range	Approved to	Roll sizes	Typical durability
ORALITE® VC104+ Rigid Grade	Yellow, Red, White	ECE 104 class C	50mm x 50m	10 Years

Trucks and Trailers

Approved marking tape for rigid surfaces

ORALITE® VC 104+ Rigid Grade Imagine

for HGVs with Rigid Grade Imagine

Product benefits include:

- Approved to ECE 104 Class C
- No need to edge seal
- No risk of the tape cracking
- Excellent long range visibility even in poor weather conditions
- Customised with your logo repeated along the tape
- Easy to handle and apply
- Robust enough to withstand cleaning processes including power washing

Product	Colour range	Approved to	Roll sizes	Typical durability
ORALITE® VC104+ Rigid Grade Imagine	Yellow, Red, White	ECE 104 class C	50mm x 50m	10 Years

Approved marking tape for rigid surfaces

ORALITE® VC 104+ Tanker Stickers

Easy to peel pre-cut stickers, especially suitable for rear marking of tankers

Product benefits include:

- Same superior performance as ORALITE® VC 104+ Rigid Grade
- Approved to ECE 104 Class C
- Pre-cut in 160mm long labels for easy application
- Ideal solutions for circular applications

Product	Colour range	Approved to	Roll sizes	Typical durability
ORALITE® VC104+ Tanker Stickers	Yellow, Red, White	ECE 104 class C	50mm x 50m pre-cut into 90mm labels pre-cut into 160mm labels	10 Years

Trucks and Trailers

Segmented approved marking tape for curtain surfaces

ORALITE® VC 104+ Curtain Grade Segmented

Product benefits include:

- Approved to ECE 104 Class C
- Easy to handle and apply
- The tape flexes and stretches with the curtain
- Resistant to power washing
- Excellent long range visibility even in poor weather conditions
- Unique vinyl construction for great flexibility
- Easy to cut with no edge sealing required
- Supplied on a continuous roll as pre-cut in labels each 48mm x 50mm (with 6 mm spacing between segn
- 3 year durability when applied to new curtains

Product	Colour range	Approved to	Roll sizes	Typical durability
ORALITE® VC104+ Curtain Grade Segmented	Yellow, Red, White	ECE 104 class C	50mm x 50m pre-cut into 48mm labels	Up to 3 Years

Approved marking tape for curtain surfaces

ORALITE® VC 104+ Curtain Grade Segmented Imagine

Product benefits include:

- Approved to ECE 104 Class C
- Easy to handle and apply
- The tape flexes and stretches with the curtain
- Resistant to power washing
- Customised with your logo repeated along the tape
- 3 year durability when applied to new curtains
- Unique vinyl construction for great flexibility
- Easy to cut with no edge sealing required
- Supplied on a continuous roll as pre-cut in labels each 48mm x 50mm (with 6 mm spacing between segments)
- Excellent long range visibility even in poor weather conditions

Product	Colour range	Approved to	Roll sizes	Typical durability
ORALITE® VC104+ Curtain Grade Segmented Imagine	Yellow, Red, White	ECE 104 class C	50mm x 50m	Up to 3 Years

Prismatic reflective livery film for extreme brightness

ORALITE® VC 310

Product benefits include:

- Prismatic reflective performance
- Polyester construction
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1)
- Compliance to AS/NZS 1906.1 Class 1A
- Best long distance visibility on the market
- Formerly known as D82
- Conformable, easy to cut and apply
- No edge sealing required
- Withstands repeated power washes
- Easy to repair if damaged
- Self adhesive backing
- Custom slitting

Product	Colour range	Roll sizes	Typical durability
ORALITE® VC 310	Silver, Red, Yellow, Blue, Green, 45° Red/Silver	775mm x 45.7m Other sizes available on request	7 Years

Prismatic reflective livery film for extreme brightness

ORALITE® DOT-C2

Product benefits include:

- Prismatic reflective performance
- Polyester construction
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1)
- Compliance to AS/NZS 1906.1 Class 1A
- Best long distance visibility on the market
- Formerly known as D82
- Conformable, easy to cut and apply
- No edge sealing required
- Withstands repeated power washes
- Easy to repair if damaged
- Self adhesive backing
- Custom slitting

Personal Safety – Glass Bead Tapes Sew-on

ORALITE® GP 011

Product benefits include:

- Economy tape, ideal for common washable high visibility garments
- Domestic wash according to ISO 6330:2012, Method 6N
- Sew-on application
- Compliance to AS/NZS 1906.4 Class R
- Reflects as white

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 011	Silver	Nylon	50mm x 100m	30 cycles at 60° C	AS/NZS 1906.4 Class R

ORALITE® GP 020

NEW

Product benefits include:

- Durable standard tape, ideal for common washable high visibility garments
- Dry cleaning possible
- Reflects as white
- Sew-on application
- Compliance to AS/NZS 1906.4 Class R
- Domestic wash according to ISO 6330:2012, Method 6N

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 020	Silver	Polyester/Cotton	50mm x 100m	50 cycles at 60° C	AS/NZS 1906.4 Class R

ORALITE® GP 030

Product benefits include:

- Flame retardant tape
- Compliance to AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc
- Domestic wash according to ISO 6330:2012, Method 6N
- Sew-on application
- Dry cleaning possible
- Reflects as white

Personal Safety – Glass Bead Tapes Industrial Wash & Flame Retardant

For sew-on application

ORALITE® GP 095

Product benefits include:

- Sew-on tape for garments where both industrial wash, flame retardance and ARC properties are needed
- Compliance to AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc
- Sew-on application
- Industrial wash according to ISO 15797:2002 Methods 8 and 2

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 095	Silver	100% Aramid fabric	50mm x 50m	50 cycles at 60° C 50 cycles at 75° C + tumble dry at 90° C 50 cycles at 75° C + tunnel dry at 155° C inlet temperature 50 cycles at 75° C + tumble dry at 90° C 50 cycles at 75° C + tunnel dry at 155° C inlet temperature	AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc

For heat application

ORALITE® GP 097

NEW

Product benefits include:

- Heat applied tape for garments where both industrial wash and flame retardance properties are needed
- Compliance to AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc
- Heat application
- Industrial wash according to ISO 15797:2002 Method 8

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 097	Silver	Heat applied	50mm x 100m	50* cycles at 60° C 50** cycles at 75° C + tumble dry at 90° C 50 cycles at 75° C + tunnel dry at 155° C	AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc

Personal Safety – Glass Bead Tapes Industrial Wash & Flame Retardant

Segmented version of ORALITE® GP 097

ORALITE® GP 097S

NEW

Product benefits include:

- Heat applied tape for garments where both industrial wash and flame retardance properties are needed
- Compliance to AS/NZS 1906.4 Class R, S/NZS 4967, AS/NZS 4824, & Arc
- Heat application
- Industrial wash according to ISO 15797:2002 Method 8
- Segmented construction for extra garment flexibility

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 097S	Silver	Heat applied	50mm x 100m	50* cycles at 60° C 50** cycles at 75° C + tumble dry at 90° C 50 cycles at 75° C + tunnel dry at 155° C	AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc

“Triple Trim” design

ORALITE® FTP 300

NEW

Product benefits include:

- Classic “Triple Trim” fire tape with a reflective centre strip and fluorescent borders
- Compliance to AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc
- Sew-on application
- Domestic wash according to ISO 6330:2012, Method 6N
- Central strip reflects light as white

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® FTP 300	Fl Lime and Silver retroreflective central strip	Cotton	50mm x 100m	40 cycles at 60° C	AS/NZS 1906.4 Class R, AS/NZS 4967, AS/NZS 4824, & Arc

Personal Safety – Prismatic Metalised Tapes

Metalised microprismatic tape for high visibility emergency services garments

ORALITE® GP 801

These products exceed the highest reflectivity of AS/NZS 1906.4 Class R

Product benefits include:

- High performance microprismatic tape
- Subsurface printed compliant checker
- Washing: according to domestic wash,
- Superior and durable performance
- Excellent performance in all weather conditions, works when wet
- Slim and flexible to move with jacket
- ISO 6330:2000, Method 2A
- Police badges available
- Superior long distance visibility

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 801	Silver Checker - Silver/Blue - Silver/Red - Silver/Green	Textile backing for sew-on	50mm x 50m	100 cycles at 60° C	AS/NZS 1906.4 Class R

Metalised microprismatic tape for high visibility garments

ORALITE® GP 440

These products exceed the highest reflectivity of AS/NZS 1906.4 Class R

Product benefits include:

- Excellent performance in all weather conditions, works when wet
- Attractive glossy surface - easy to wipe clean
- Slim and flexible to move with the garment
- Textile backing for sew-on applications
- Washing: according to domestic wash, ISO 6330:2000, Method 2A

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 440	Silver, FI Lime	Textile backing for sew-on	50mm x 50m	100 cycles at 60° C	AS/NZS 1906.4 Class R

Personal Safety – Prismatic Air Backed Tapes

High Visibility Workwear

ORALITE® GP 110 / GP110 Breathable

These products exceed the highest reflectivity of AS/NZS 1906.4 Class R

Product benefits include:

- High performance prismatic tape
- Safety without compromise
- Superior long distance visibility
- Available in vivid fluorescent colours for added visibility
- Excellent performance in all weather conditions, works when wet
- Washing: according to domestic wash, ISO 6330:2000, Method 2A

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 110	White, FI Lime	sew-on	50mm x 50m	50 cycles at 65° C	AS/NZS 1906.4 Class R
ORALITE® GP 110 Breathable	White, FI Lime	sew-on	50mm x 60m	50 cycles at 65° C	AS/NZS 1906.4 Class R

ORALITE® GP 340

Product benefits include:

- Compliance to AS/NZS 1906.4 Class R
- Sew-on application
- Fluorescent colours available
- Excellent performance in all weather conditions, works when wet
- Domestic wash according to ISO 6330:2012, Method 6N

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® GP 340	White, FI Lime	sew-on	50mm x 50m	50 cycles at 65° C	AS/NZS 1906.4 Class R

ORALITE® AU 350

Product benefits include:

- The ideal prismatic tape for cold weather and hard wearing applications, due to its reinforced backing
- Compliance to AS/NZS 1906.4 Class R
- Sew-on application
- Excellent performance in all weather conditions, works when wet
- Domestic wash according to ISO 6330:2012, Method 6N
- Especially for cold weather and hard wearing applications

Product	Colour	Backing	Roll sizes	Washing	Approval
ORALITE® AU 350	Arco Red	sew-on	50mm x 50m	50 cycles at 65° C	AS/NZS 1906.4 Class R

“Techwear by Carrycode have been using ORAFOL reflective garment tapes for over 15 years, supplying garments to the Police and Ambulance services around Australia. In ORAFOL we have found a partner who are professional, easy to deal with, consistent in their supply of products, and who we would not hesitate in recommending to any other manufacturer in our industry.”

Tom Ryan Manager, Techwear by Carrycode

Marine

Marine

For the maritime and offshore industries ORAFOL offers a variety of SOLAS approved tapes for marine applications such as life jackets, inflatable lifeboats and heavy duty marine rainwear.

ORALITE® FD 1403 and FD 1404

Product benefits include:

- Microprismatic technology
- Compliance with SOLAS/IMO requirements
- Single layer construction - flexible and durable
- Brilliant long-range visibility
- Durable, superior abrasion resistance
- Waterproof
- Flexible, will easily conform to irregular or pitted surfaces
- Will survive continuous immersion in sea water and freezing temperatures
- Kiss Cut patches available

FD 1403

FD 1404

Product	Colour	Construction	Roll sizes	Immersion	Approval
ORALITE® FD 1403	Silver	Polyester top film fabric-backed or pressure sensitive adhesive	50mm x 45.7m	Type I - 750 hours Type 2 - 1500 hours	SOLAS/IMO European BV US Coast Guard
ORALITE® FD 1404	Silver	PVC top film pressure sensitive adhesive	50mm x 45.7m	Type I - 750 hours	SOLAS/IMO European BV

Mining and Construction

Mining and Construction

ORALITE® Mine Hanging Streamers & Droppers

ORALITE® mine hanging streamers and tags are a unique way of delineating underground roadways. Research has proven that colour and long distance visibility play a major role in safety. By making work areas more visible, we can reduce the risks of death and injury.

Product benefits include:

- Double sided: can be seen in both directions
- Reflects colour: colour coding for different applications
- Computer cut lettering applied
- Compliance to AS/NZS 1906.1:2017 Class 300T (Class 1)
- Two colour combinations
- Weighted
- Reinforced and non-reinforced
- Attach with ease: eyelets, magnets and press studs

Product	Colour range	Width	Length
ORALITE® Mine Hanging Streamers & Droppers (Non-reinforced)	White, Yellow, Orange, Red, Blue, FI Orange, FI Lime, FI Pink, FI Red, FI Green	25mm and 50mm	Custom lengths
ORALITE® Mine Hanging Streamers & Droppers (Non-reinforced with plastic insert)	White, Yellow, Orange, Red, Blue, FI Orange, FI Lime, FI Pink, FI Red, FI Green	50mm	500mm to 2m
ORALITE® Mine Hanging Streamers & Droppers (Reinforced)	Yellow, Blue, FI Lime, FI Pink, FI Green	50mm	Custom lengths

Mining and Construction

ORALITE® Cable Patches and Tags

ORALITE® cable tie rope patches and tags are the solution to your delineation of conveyor belts and for identifying areas where colour coding is necessary.

Product benefits include:

- Brightest retroreflective technology
- Long distance visibility
- Double sided: can be seen in both directions
- Wet performance
- Extensive range of colours
- Reflection in the colour of the tape
- Abrasion and wash resistance
- Custom made to your requirements
- Compliance to AS/NZS 1906.1:2017 Class 300T (Class 1)

Product	Colour range	Sizes
ORALITE® Cable Patches ORALITE® Tags (Non-reinforced)	White, Yellow, Red, Blue, Fl Lime, Fl Pink, Fl Red, Fl Green	105mm x 48mm x 5mm hole 110mm x 80mm x 5mm hole 110mm x 110mm x 5mm hole 160mm x 50mm x 22mm hole 210mm x 60mm x 22mm hole 50mm x 500mm x 22mm hole

ORALITE® Helmet Stickers
Airbacked and Channeliser

ORALITE® Helmet Stickers are manufactured in both airbacked prism and metalised retroreflective channeliser materials. Standard colours and sizes are available in both airbacked and channeliser products.

Product benefits include:

- Brightest retroreflective technology
- Long distance visibility
- Wet performance
- Reflection in the colour of the tape
- Custom made to your requirements
- Compliance to AS/NZS 1906.1:2017 Class 300T (Class 1)

Product	Colour range	Sizes
ORALITE® HP Airbacked	White, Fl Lime, Fl Red	25mm x 100mm (16/Sheet)
ORALITE® Channeliser	White	25mm x 230mm Straight 25mm x 220mm Curved

Mining and Construction

ORALITE® Cone Collars

These materials are ideal for use on temporary traffic zones and demarcation of blast areas.

Product benefits include:

- Prismatic high brightness materials
- Vinyl construction
- Wide angle performance
- Fluorescent colours available for added visibility during the day and in adverse weather conditions
- We offer custom sizes on request
- Custom text available
- Superior durability

Product	Colour range	Sizes	Approval
ORALITE® Cone Collars 2018 Highbright	White, Yellow, Red, Blue, Superbright Orange, FI Lime, FI Pink, FI Red, FI Green	150mm Collar 250mm Collar 250mm Collar 700 mm Collar Custom Sizes	AS/NZS 1906.1:2017 Class 300T (Class 1)

“Hi-Vis has proudly partnered with ORAFOL for the past 25 years in building our mining division. We can always rely on the expertise and the quality of products ORAFOL provide time after time.”

Simon Watson Director Hi-Vis Group

ORALITE® Picket Pockets

ORALITE® picket pockets are used in the delineation and demarcation of haul roads and intersections, blasting areas and for general site safety.

Product benefits include:

- Prismatic high brightness materials
- Vinyl construction
- We offer custom sizes on request
- Fluorescent colours available for added visibility during the day and in adverse weather conditions
- Wide angle performance
- Superior durability

Product	Colour range	Sizes	Approval
ORALITE® Picket Pockets 2018 Highbright	White, Yellow, Red, Blue, FI Lime, FI Pink, FI Red, FI Green Superbright Orange	150mm x 1000mm 175mm x 600mm 175mm x 750mm 175mm x 1000mm 200mm x 750mm 200mm x 1000mm Custom Sizes	AS/NZS 1906.1:2017 Class 300T (Class 1)

Mining and Construction

ORALITE® Rollup Signs

2018 / 2051 / 2056

ORALITE® uses its proprietary microprism reflective system to produce superior products in a flexible format that exceeds performance requirements of on site applications. Reflective roll up sign panels are of a much lighter weight than boxed edge signs. There are no sharp edges or corners. This improves safety factors for both the users and on site vehicles.

Product benefits include:

- Prismatic high brightness materials
- Vinyl construction
- Compliance to AS/NZS 1906.1:2017 Class 400T (Class 1W) (WZ)
AS/NZS 1906.1 Class 300T (Class 1)
- Wide angle performance
- Fluorescent colours available for added visibility during the day and in adverse weather conditions
- Superior durability
- Most systems will fold down to compact sizes.
- We offer custom sizes on request

Product	Colour Range	Description	Standards	Application
ORALITE® Rollup Signs 2018 Highbright	White, Yellow, Blue, Red, FI Lime, FI Pink, FI Red, FI Green	High performance vinyl film RF welded to a reinforced scrim backing. Custom panels made to order	AS/NZS 1906.1:2017 Class 300T (Class 1) & Class 400T (Class 1W)	For use in temporary work zone, construction, and emergency applications.
ORALITE® Rollup Signs 2051 Superbright	FI Orange	High performance fluorescent vinyl film RF welded to a reinforced scrim backing. Custom panels made to order	AS/NZS 1906.1:2017 Class 300T (Class 1) & Class 400T (Class 1W)	For use in temporary work zone, construction, and emergency applications.
ORALITE® Rollup Signs 2056 Marathon	FI Orange	Long life fluorescent vinyl film RF welded to a reinforced scrim backing. Custom panels made to order	AS/NZS 1906.1:2017 Class 300T (Class 1) & Class 400T (Class 1W)	For use in temporary work zone, construction, and emergency applications.

Banner Materials

ORALITE® 5946

Product benefits include:

- Highly flexible banner material
- Embossed air backed prism construction
- High Frequency weldable or sewable
- UV Stabilised PVC top film
- Compliance to AS/NZS 1906.1:2017 Class 400T (Class 1) (WZ)
- Excellent printability

Product	Colour range	Printing	Roll sizes	Outdoor durability
ORALITE® 5946	White, Yellow, FI Yellow/Green	Ink-jet and screen printing	1235mm x 25m	5 Years
ORALITE® 5946	FI Orange	Ink-jet and screen printing	1235mm x 25m	3 Years

Mine Spec Vehicles

Flexible high performance prismatic film

ORALITE® VC 612 Flexibright™

Product benefits include:

- High tack
- No edge sealing required
- Conformable and adaptable
- Easy to apply
- Withstands power washing and Solvent resistance
- Wide angle performance
- Highest reflective brightness
- Easy damage repair
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1)

Product	Colour range	Roll sizes	Typical durability
ORALITE® VC 612 Flexibright™	Fl Yellow/Green (Lime), Fl Lime	50mm x 50m 75mm x 50m <i>Other sizes available on request</i>	Fluorescent colours: 3 to 5 years

Prismatic Brilliant Grade

ORALITE® 6900 Edge Sealed

NEW

For High Visibility on Mining & Construction Sites

Product benefits include:

- Prismatic high brightness livery film
- Pre-edge sealed tape
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1W)
- Ideal solution for long term durability for mining vehicles

Product	Colour range	Roll sizes	Typical durability
ORALITE® 6900 Edge Sealed	Fl Yellow-Green	50mm x 50m 75mm x 50m <i>Other sizes available on request</i>	10 Years

Prismatic Construction Grade

ORALITE® 5930

For High Visibility on Mining & Construction Sites

Product benefits include:

- Highly reflective prismatic film
- Surface of special treated PVC film
- Compliance to AS/NZS 1906.1:2017 Class 400 (Class 1W)

Product	Colour range	Roll sizes	Typical durability
ORALITE® 5930	Fl Yellow-Green	50mm x 50m 75mm x 50m <i>Other sizes available on request</i>	3-5 Years
