

## ORABOND® Spool Tapes for Plastic Extruders and Processors

The extensive range of ORABOND® adhesive tapes offers time and cost saving solutions for the fast-growing industries for PVC, Aluminium, wooden and sealing profiles and the automotive industry.

### **ORABOND® spool tapes are ideal for continuous production of:**

- extrusion profiles
- furniture plinths
- components made from PVC, MDF, wood or aluminium
- postal solutions
- packaging

Most ORABOND® spools and long length rolls can be supplied in **Fingerlift** versions:

- one-sided or both-sided extended liner
- various release liners available

### **Advantages:**

- Continuous rolls and spools up to 8,000m length
- more convenience in fully automated processes
- higher production speeds
- cost and time savings
- fast and flexible production
- customised solutions
- short lead times
